CAPITAL FUND I LOANS

Serving All of Arizona

“ Utilizing over 100 years of combined real estate, investing and lending experience, we internally originate, underwrite, fund and service all of our loans, enabling investors to seize valuable real estate opportunities quickly and confidently. ”

CAPITAL FUND vs. TRADITIONAL BANK

What sets Capital Fund I apart is the fact that traditional banks are credit/financial-based, making their loan process slower and more complicated, usually requiring three years of personal and business financial statements, tax returns and extensive credit checks. In addition, they require a current property appraisal, environmental studies, inspections and possible other due diligence materials.

Capital Fund I loans are asset-based, allowing us to process your loan quickly and without hassle. As a full-service private lender, Capital Fund I has the capability to expedite loan terms and fund within 24 to 48 hours, allowing you to quickly take advantage of real estate investment opportunities.

CAPITAL FUND I

- 1 Capital Fund I is an “asset-based” lender.
- 2 Typically no credit check or review of financials.
- 3 Credit decisions made within 24 to 36 hours.
- 4 Innovative deal structures.
- 5 In depth knowledge of real estate, development and construction.
- 6 In house credit decisions, underwriting, funding and servicing.
- 7 Loan funding can occur within 24 to 48 hours.

TRADITIONAL BANK

- 1 Traditional banks are “credit-based” lenders.
- 2 Need 3 years of detailed financials, tax returns and credit history.
- 3 Credit decisions are committee based and can take 60 to 120 days.
- 4 Very strict credit parameters.
- 5 Regulated by the Federal Government.
- 6 Credit instruments can be sold and/or serviced by 3rd party.
- 7 Unpredictable underwriting guidelines and practices.

Why let another real estate investment pass you by?
